

# GenAI 90-Day – Product Roadmap

Prepared by **Seth Fannin** – GenAI, PM, Ops

---

## SECTION 1: STRATEGIC CONTEXT

**Objective:** Accelerate GenAI implementation while aligning with ATO compliance, agile delivery, and internal team readiness.

**Approach:** This 90-day roadmap provides a phased delivery plan across engineering, cybersecurity, and operations, supporting faster adoption and internal alignment in secure environments.

---

## SECTION 2: TIMELINE & MILESTONES

### Week 1–4: Discovery & Baseline

- Audit SDLC and DevSecOps workflows supporting GenAI
  - Review ATO documentation and assess risk posture
  - Define performance baselines and success metrics
  - Kick off agile standups and stakeholder syncs
- 

### Week 5–8: Sprint Execution & Launch

- Launch initial GenAI sprint and secure environment setup
  - Collect internal feedback and refine the use case scope
  - Draft ATO risk minimization plan
  - Monitor cost/schedule and recommend course corrections
-

## Week 9–12: Stabilize & Scale

- Institutionalize governance, cadence, and success tracking
- Deliver KPI dashboard for performance visibility
- Define staffing plan for long-term delivery ops
- Document repeatable playbooks for future deployments

## SECTION 3: VISUAL ROADMAP

90-Day AI Technical PM Roadmap				
	DISCOVERY & BASELINE	SPRINT EXECUTION	STABILIZE & SCALE	SUSTAIN & SUPPORT
TEAMS	Week 1–4	Week 5–8	Week 9–12	Maintenance & Operational Maturity
AI Deployment & Engineering	Assess GenAI DevSecOps Environment	Deploy Initial Use Case Sprint	Optimize Performance & Integrate Feedback	Transition GenAI Sprint learnings into scalable model design
ATO/ Cybersecurity Compliance	Engage ISSM / ISSO, Audit ATO Gaps	Prep Security Control Remediation	Submit Approval & Finalize Authority to Operate	Maintain ATO through ongoing POA&M and quarterly audits
Delivery Ops & Stakeholders	Define Metrics, Establish Dashboards	Pilot Reporting, Stakeholder Syncs Begin	Finalize SOPs, Hand Off Operational Guide	Convert reports into a repeatable AI playbook or brief SOP

## SECTION 4: WHY ME

- Product-minded systems thinker applying GenAI outside my role  
Aligned with ATO and DevSecOps delivery on large defense IT programs
- Led ISO/ISSM/ISSO-aligned teams across secure environments
- Proven at managing cost, schedule, and performance for tech transformation
